

(A) Oprl1 and Glp1r co-detection
nodose neurons on the NodoMap UMAP

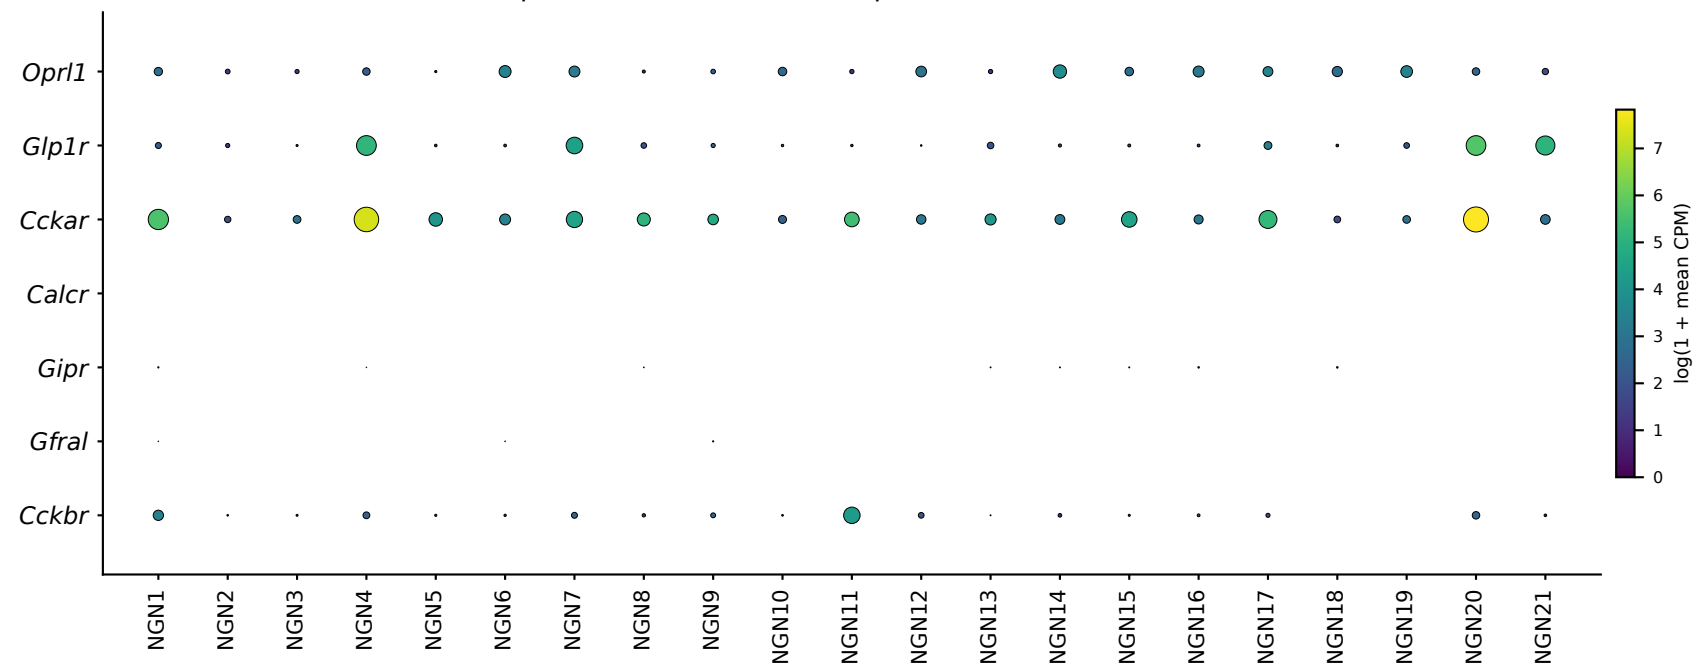

(B) Oprl1 against Glp1r, per nodose cluster
Spearman rho = 0.01, p = 9.7e-01 (n = 21)

(C) Oprl1 against Cckar, per nodose cluster
Spearman rho = -0.14, p = 5.3e-01 (n = 21)

(D) Oprl1 and the satiation receptors across nodose clusters

(E) The association survives depth and cluster control
